

Corporater EPM Solutions - Feature Fact Sheet

Corporater Express is an on-demand performance management solution available anywhere, anytime. There is no software to implement, no steep learning curve, no need for IT consultants as it adapts into any performance measurement model.

Corporater Enterprise Performance Management Suite is a standardized, web-based solution that requires no customization of program code. Our modular design allows customers to choose the functionality they need, and to expand the capabilities of their software as their needs change over time.
