STRATEGIC INITIATIVE

MANAGE THE WAY YOU WORK

Corporater EPM Suite On-Demand is designed to offer productivity tools that enable you to quickly create and access the information you need, when you need it.

The World's Leading On-Demand Performance Management Solution

Corporater offers the power of our proven enterprise performance management solution in a revolutionary, on-demand package. Our innovative approach makes it easy to build, manage, and share your key business performance information. If the idea of deploying another enterprise-wide solution scares you, Our On-Demand Edition is just what you need. We make enterprise performance management so accessible, affordable, easy, and effective that you will wonder how you managed without it.

Business in Control

At Corporater, we believe in Business in Control. On-demand is a further extension of our ease of use and deployment – eliminates software installation and maintenance entirely. Organizations of all sizes are adopting the on-demand model for business applications. Customers can smoothly switch to the Enterprise Edition at any time.

Easy Choices

At Corporater, you can purchase licenses for exactly the number of users you need. We have no complicated licensing models, no long-term commitments, no minimum users. We even offer a free evaluation period.

Key benefits of using the On-Demand Edition

- ✦ Single version of the truth - centralized view of performance with web-based interface
- ✦ Seamless integration of performance metrics, people, and data
- ✦ Easy to navigate and drill down through large organizations
- ✦ Adapts into any performance measurement model
- ✦ User access management functionality gives control over information flow
- ✦ Strategic initiatives, performance reports, risk management, and more

Corporater EPM Suite On-Demand makes management of your performance metrics simpler than ever. That is because its configuration and administration is web-based. There is no software to implement, no steep learning curve, no need for IT consultants to build your system. You are already a few quick clicks away from creating your work space.

Corporater EPM Suite On-Demand offers

Certified Power

The On-Demand Edition shares the same engine that drives Corporater's BSCOL-certified Enterprise Edition - so you will never outgrow its functionality

An Advanced Scorecard Toolset

Whether you use a collection of performance metrics or a full-blown Balanced Scorecard - we offer all the tools you need.

Real-time Answers

Corporater EPM Suite is a solution that provides you answers in real-time about how your company is performing in key performance areas.

Business Focus

Designed for business users by business users. We work the way you think.

Ease of Use

Makes deployment easier than ever. Start working today.

Reduced Cost

With no servers or databases for you to manage, your time and resources can be used elsewhere.

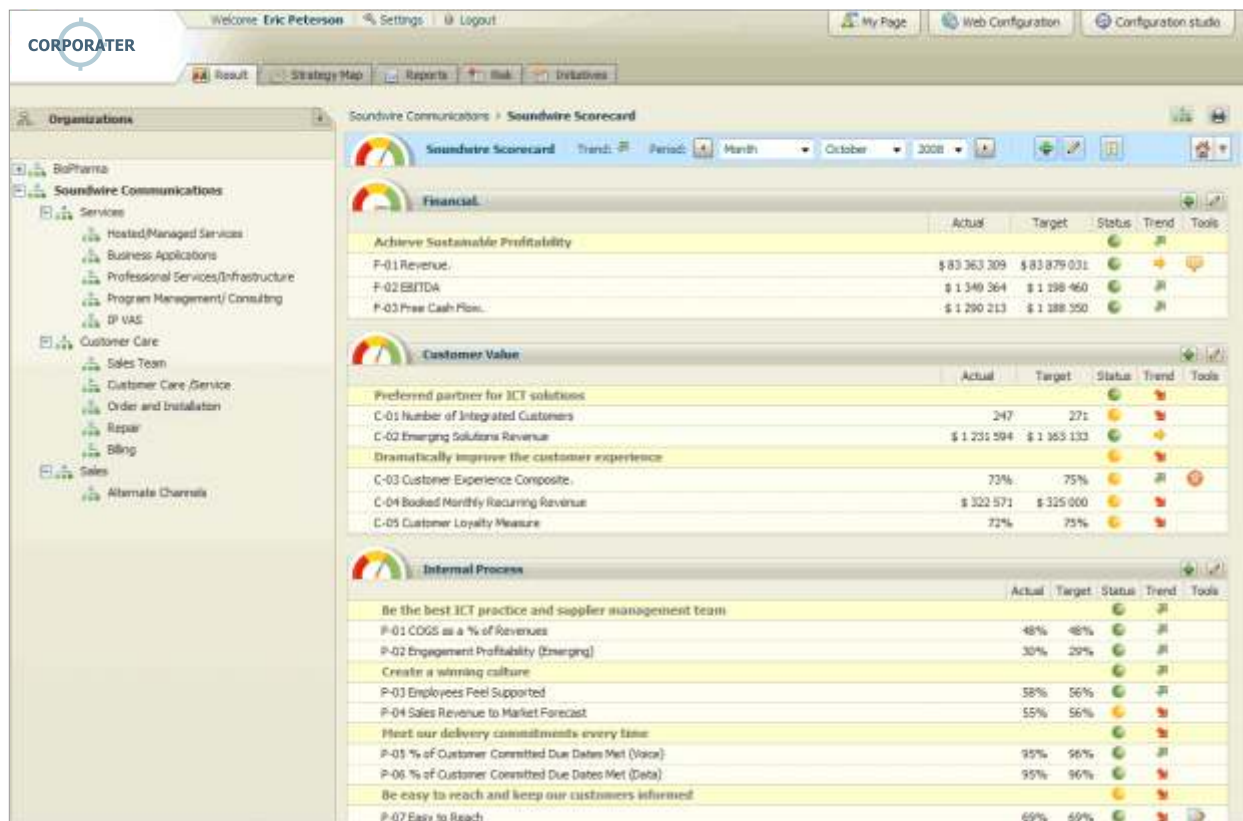

Assured Security

We understand your concerns for data security. Your data is hosted on secure servers hosted at Rackspace and accessed via secure connections

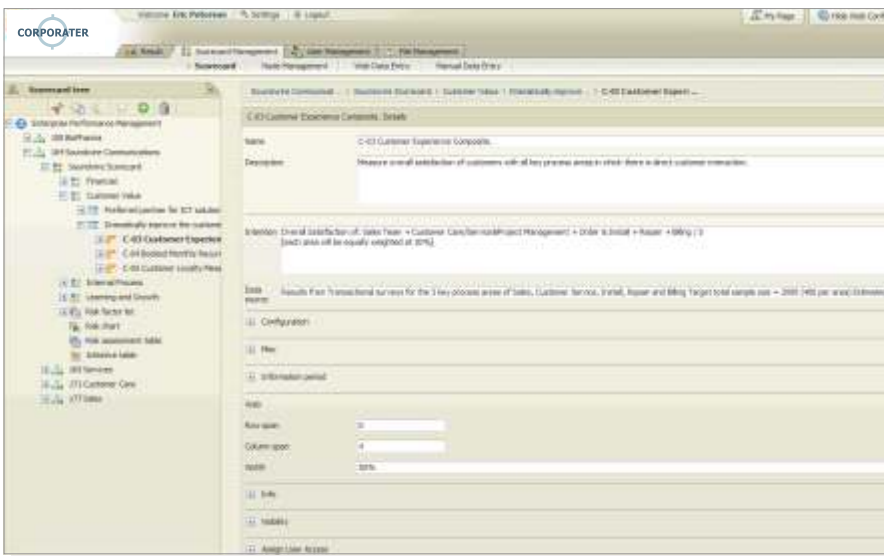

Compelling Value, Today and Tomorrow

We offer straight-forward pricing with no hidden costs. Our proposition is simple: we offer a highly affordable, easily scalable and upgradeable service. If you wish to host your own enterprise package, you can migrate at any time.

Reports

- Alert Reports
- Board Report
- Organizational Reports
- Critical Risks
- Item Templates
- Monthly Reports

Enterprise reporting is available in several document formats. Choose standard report templates, or advanced customized reports that can be merged with your existing report templates.

Organizations should manage performance with applications designed for business in a simple and easy to use manner that should not be hampered by IT resources or priorities. Corporater provides an application that can help organizations understand and align performance and can be up and running within one day.
